Subject: Request extension of approval of planned new development for 22-Row Townhomes at 412 N. Cass Avenue.

Dear Ms. Ziegler,

I would like to request the opportunity to appear before the Village board to request an extension of the approvals that have been granted for the planned new development of 22-Row townhomes at 412 N. Cass Avenue. The purpose of the extension is to allow my Civil Engineer, KDC Consultants additional time to put the final submission packet together for Village review. I believe that we will have final drawings into the Village prior to the end of the month but would like an extension through the end of August just in case we have to make changes based on the final review comments. It is my understanding after discussing all current comments from the Village with my consultants that all issues have been resolved. Your help in this matter is greatly appreciated.

Sincerely,

Steven A. Vernon
